

EXPANSE TALL FESCUE

Festuca arundinacea

DESCRIPTION

Expanse Tall Fescue (PPG-TF-262) has a wide range of coveted qualities including top of class overall turf quality in the northeast region. This variety has excellent performance against Brown Patch and is first in its class for spring green up. It's incredible summer density allows for low mowing heights in high maintenance applications. Expanse Tall Fescue exhibits tolerance to drought while displaying fine leaf texture and withstanding heavy traffic.

APPLICATION

Sod production, sports turf, professional lawn and landscape, home lawns, golf course roughs

FEATURES & BENEFITS

- Drought tolerance
- Rapid spring green up
- Great turf quality across multiple regions
- Strong Brown Patch resistance

GEOGRAPHICAL ADAPTATION

Cool-season and transition zones
