

# MULTI 5301 Alfalfa

*An Excellent Winter Hardy Multileaf Alfalfa*

*Multi 5301, is a tap root, multileaf alfalfa that is a registered variety. Early to medium maturing with multifoliate expression of 95%. It is a strong stemmed, lodging resistant variety. Highly palatable as well, making it a great hay component. With a fall dormancy of 3, Multi 5301 is an excellent winter hardy alfalfa. In the MCVET Manitoba Agriculture trials it is the highest yielding multileaf alfalfa that still has an “excellent rating” for winter hardiness.*

## Agronomic Traits

Bacterial Wilt - HR  
Fusarium Wilt - HR
