

SUN & SHADE LAWN SEED MIXTURE

ALL PURPOSE LAWN SEED

Drought
tolerant

Rapid
establishment

Low
maintenance

Strong
shade tolerance

Wide
adaptability

Sun & Shade Lawn Seed Mix The Sun & Shade Lawn Seed Mix ensures rapid germination and a dense, low-maintenance turf suitable for moderate sun and shade. Kentucky bluegrass adds lateral spread, density, and pest resistance, while perennial ryegrass offers quick germination. Turf-type tall fescue and Chewings fescue enhance shade tolerance and perform well in low-maintenance conditions. Drought tolerance of this product is recognized through the approval of the Turfgrass Water Conservation Alliance.

Recommended Use: Sun & Shade Lawn Seed Mix is designed to perform best in areas that have 30% to 50% shade. It can be used successfully on a variety of soils existing in most sites, including home lawns, commercial properties, parks, schools, and other turf areas receiving normal to low maintenance.

COMPOSITION

- 30% Mollala Perennial Ryegrass
- 20% Enchantment Chewings Fescue
- 20% Mazama Kentucky Bluegrass
- 15% Lifeguard Turf Type Tall Fescue
- 15% Relentless Turf Type Tall Fescue
- *Or equivalent depending on availability
